High-quality display cloth made of P-9000®-Microfiber rPET for gentle cleaning of display, touchscreen and monitor: The lint-free microfiber was specially developed for sensitive surfaces and cleans displays without leaving streaks. The display cloth reliably removes greasy dirt such as fingerprints and ensures immaculate cleanliness.

Application

Preferably apply damp or dry. If necessary, test in advance on an inconspicuous area.
Please refer to the manufacturer's care instructions if necessary.
After use, always keep the display cloth dust-free in the packaging.

P-9000®-Microfiber rPET
(70% recycled polyester | 30% polyamid)

Do not use fabric softener.
